

## SAVE THE DATE

### PREZODE Pillar Working Groups launching Webinar

May Thursday 23<sup>rd</sup> (3:00 pm – 4:00 pm, CEST)

The PREZODE initiative set up Pillar Working Groups (PWGs) composed of experts from the science community, to help deliver each Pillar's goal and mission as presented in [PREZODE Strategic Agenda](#). The main aim of the PWGs is to bring together the relevant experts in an innovative format and to develop joint recommendations and actions in a co-creation process to support international organizations and countries across the globe in preventing zoonotic disease emergence and spread, particularly in low-income countries. The PWGs will develop a framework shift to envision innovative prevention strategies, based on the five pillars of PREZODE:

- **PWG 1: Understand the zoonotic risk and risk activities**
- **PWG 2: Co-design solutions to reduce the zoonotic risk**
- **PWG 3: Strengthen early warning systems to detect zoonotic risks**
- **PWG 4: Prototype a global information system for surveillance and early detection**
- **PWG 5 (cross-cutting): Engage stakeholders and co-design One Health networks and policies**

Agenda	
3:00 pm	Welcoming of the participants
3:05 pm	Presentation of PREZODE Strategic Agenda and Pillars
3:15 pm	Timeline, general overarching goals, objectives and deliverables of the Pillar Working Groups
3:30 pm	Composition and potential objectives of each Pillar Working Groups
3:50 pm	Q&A
4:00 pm	Conclusion and next steps
